loan on cotton in which a share tenant or sharecropper has an interest, the 1943 Cotton Producer's Note and Loan Agreement (1943 C. C. C. Cotton Form A), (hereinafter referred to as "Form A") requires that he have the legal right to do so and that the share tenant or sharecropper be paid his pro rata share of the proceeds.

(b) *Eligible producer.* A producer will be entitled to a loan at the full loan rate on eligible cotton produced by or for him in 1943 on a farm for which a 1943 cotton acreage allotment has been determined under Title III of the Agricultural Adjustment Act of 1938, as amended and supplemented (such allotment is 110 percent of the cotton acreage allotment determined for the farm under the 1943 Agricultural Conservation Program), if either of the following requirements are met:

(1) The agricultural conservation committee for the county in which the farm is located determines that a substantial part of any crop on the farm has been destroyed or damaged by flood or by insect infestation in 1943 so that abandonment or replanting of such crop is necessary or determines that plantings have been interfered with by reason of floods in 1943, or

(2) The 1943 cotton acreage allotment determined under such title for each farm from which he has an interest in the cotton is not knowingly exceeded, as determined by the agricultural conservation committees for the counties in which such farms are located, or, if any such allotment is knowingly exceeded, such farm comes within the provisions of subparagraph (1) of this paragraph.

(c) *Eligible cotton.* Eligible cotton shall be cotton produced in 1943 by or for a producer: *Provided*, That the cotton meets the following requirements:

(1) Such cotton must be of a grade and staple specified in Table No. 1 attached.

(2) Such cotton must be represented by warehouse receipts complying with the provisions of § 239.8.

(3) Such cotton must not be compressed to high density.

(4) Such cotton must be free and clear of all liens and encumbrances, except those in favor of the warehouse in which the cotton is stored, as specified in the Warehouseman's Certificate and Storage Agreement in Form A.

(5) Such cotton must be tendered for a loan by a person who has the legal right to pledge it as security for a loan.

(6) The beneficial interest in the cotton must be, and must always have been, in the person tendering such cotton for a loan, or in such person and any share tenant or sharecropper having an interest in the cotton, or its proceeds in case such person is a landlord, cash tenant, or standing-rent tenant, and is placing under loan cotton in which both he and a share tenant or sharecropper have an interest.

(7) Such cotton must not have been received in payment of standing or fixed rent.

(8) The persons having an interest in the cotton must all be entitled to a loan on the cotton at the full loan rate.

(d) *Certificate of indemnity.* Cotton covered by a Certificate of Indemnity (Form FCI-74, issued by Federal Crop Insurance Corporation) will also be eligible for direct loans by Commodity Credit Corporation, in accordance with special instructions to be issued by Commodity Credit Corporation.

(e) *Lending agency.* Any bank, corporation, partnership, association, or person making a loan to a producer, pursuant to a Form A, in accordance with the instructions in this part.

(f) *Eligible paper.* Form A duly executed subsequent to July 31, 1943, and prior to May 1, 1944. State documentary revenue stamps should be affixed thereto where required by law. (A Form executed by an administrator, executor, or trustee will be acceptable only where valid in law and must be submitted for a direct loan in accordance with § 239.11 unless accompanied by a repurchase agreement of the lending agency. Copies of this agreement may be obtained from the regional office of Commodity Credit Corporation, New Orleans, Louisiana.)

§ 239.2 *Forms.* The following documents must be delivered in connection with every loan:

(a) Form A.

(b) Warehouse receipts complying with the provisions of § 239.8.

(c) Producer's Letter of Transmittal (C. C. C. Cotton Form B) or Lending Agency's Letter of Transmittal (C. C. C. Cotton Form C).

§ 239.3 *Amount.* The base loan rate applicable at each approved warehouse will be shown on the "Schedule of Approved Warehouses" issued by Commodity Credit Corporation and available at the office of the county agricultural conservation committee. Premiums and discounts applicable to each grade and staple length are shown in Table No. 1

attached. Loans will not be made on grades or staple lengths of cotton not shown in such table. Loans will be made at the rates shown in the "Schedule of Approved Warehouses" adjusted for appropriate premium or discount for each grade and staple. All loans will be made on the net weight of the lint cotton.

§ 239.4 *Classification of cotton.* All cotton must be classified by a Board of Cotton Examiners of the United States Department of Agriculture. Warehousemen should forward samples to the Board of Cotton Examiners serving the district in which the warehouse is located, and a list showing the class of the cotton will be returned by said board. Instructions have been issued to approved warehouses concerning sampling and forwarding of samples and recording the class of the cotton in the loan agreement. No separate charge is to be made to producers for this service as it is included in the Warehousemen's Storage Agreement. A Form 1 classification memorandum of the United States Department of Agriculture will also be accepted as evidence of the class of cotton.

A charge of 15 cents per bale will be made for classing the cotton. The Board of Cotton Examiners will make collections for classing charges from the warehousemen at the end of each month. A certified check, cashier's check, or postal money order, payable to Commodity Credit Corporation, must be sent to the Board of Cotton Examiners by the warehouseman in payment of these charges. The warehouseman should collect this charge from the producer.

§ 239.5 *Preparation of documents.* A producer desiring to obtain a loan may obtain the necessary forms from approved cotton warehouses and also from persons approved by the county agricultural conservation committees in the cotton-producing areas to assist producers in preparing and executing the loan forms. Only persons approved by such committees for such purpose may execute the clerk's certificate in Form A. Such persons are permitted to collect a fee from producers not to exceed the amount approved by Commodity Credit Corporation for rendering this service. These fees are shown in the following schedule:

Number of bales on the note:	Maximum fee allowed (cents)
1-6.....	25
7-8.....	30
9-10.....	35
11-20.....	35
21 and over.....	55

¹ Plus 2 cents for each bale over 10.

² Plus 1 cent for each bale over 20.

All blanks must be filled in with ink, indelible pencil, or typewriter, in the manner indicated therein, and no documents containing additions, alterations, or erasures will be accepted by Commodity Credit Corporation. Only the original copy of Form A is to be signed, the copy marked duplicate is to be retained by the producer.

The schedule of warehouse receipts must represent cotton of only one grade and staple length.

The representations in subsection 3 (f) of the Loan Agreement in Form A respecting the issuance of white marketing cards shall be ineffective, since marketing cards will not be issued by the Agricultural Adjustment Agency for cotton of the 1943 crop.

§ 239.6 *Certification of producer.* As evidence that the producer is entitled to a loan at the full loan rate, Commodity Credit Corporation will accept the Clerk's Certificate in Form A. The certification in the Clerk's Certificate that the producer has exhibited white marketing cards shall be ineffective. County agricultural conservation committees will furnish approved clerks with lists of producers who have knowingly exceeded their allotment on any farm which does not come within the provisions of § 239.1 (b) (1). A clerk shall not execute the Clerk's Certificate on a Form A if the producer's name is contained on any such list but shall refer the producer to the county agricultural conservation committee, which will execute its certificate on the Form A if the producer is entitled to a loan because the farm on which the cotton was produced comes within the provisions of § 239.1 (b) (1). Such certificate must also be completed on any Form A tendered to Commodity Credit Corporation for a direct loan pursuant to § 239.11.

§ 239.7 *Approved warehouses.* Warehouse receipts representing eligible cotton will be accepted as security for loans made pursuant to Form A only if issued by warehousemen approved by Commodity Credit Corporation. Warehousemen desiring to be approved should communicate with the regional office of the Commodity Credit Corporation, New Orleans, Louisiana. When warehouses are approved, notification will be given either by letter or published lists. All cotton pledged as security for any one loan must be in the same warehouse.

The warehouseman is required, as provided in the Warehouseman's Certificate and Storage Agreement in Form A, to draw representative samples from the bales and to deliver or forward such samples to a Board of Cotton Examiners for classing, except where Form 1 classification memorandum of the United States Department of Agriculture is used.

Since the loan will be made on net weight, it will be necessary for the warehouseman to determine the amount of tare on each bale and show the tare in the Schedule of Pledged Cotton in Form A. Instructions will be issued to the warehousemen for their guidance in determining tare.

§ 239.8 *Warehouse receipts.* Only negotiable warehouse receipts issued by an approved warehouse, dated on or prior to the date of the producer's note and properly assigned by an endorsement in blank so as to vest title in the holders or issued to bearer, will be acceptable. They must set out in their written or printed terms a description by tag number and weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse re-

ceipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Warehouse receipts issued prior to August 1, 1943, which by their terms will expire prior to August 1, 1944, must bear an endorsement of the warehouse extending the terms of the warehouse receipt for a period of 1 year from August 1, 1943. Block warehouse receipts will not be accepted.

§ 239.9 *Warehouse charges.* The warehouseman's charges are limited and his obligation defined by the Warehouseman's Certificate and Storage Agreement contained in Form A. This should be read carefully and must be executed by the warehouseman issuing the cotton warehouse receipts pledged as collateral to the producer's note.

§ 239.10 *Liens.* Eligible cotton must be free and clear of all liens except in favor of the warehouse in which the cotton is stored, as specified in the Warehouseman's Certificate and Storage Agreement in Form A. The names of the holders of all existing liens on cotton tendered as security for a loan, such as landlords, laborers, or mortgagees (but not warehousemen), must be listed in the space provided therefor in Form A, and the lienholders so listed must execute the Lienholders' Waiver in such form. If the borrower is a tenant or a sharecropper, the landlord must be listed in Form A and must sign the lien waiver whether or not he claims a lien, unless the producer's note is signed jointly by the landlord and the tenant or sharecropper. A misrepresentation as to prior liens, or otherwise, will render the producer personally liable under the terms of the loan agreement and subject him to criminal prosecution under the provisions of section 35 (A), of the Criminal Code of the United States (18 U.S.C. 80). The Lienholders' Waiver in Form A must be signed personally by all lienholders listed or by their agents, or, if a corporation, by the designated officer thereof customarily authorized to execute such instrument, in which case the duly executed authority need not be attached. A Form A will not be acceptable unless all prior lienholders are listed therein and have executed the Lienholders' Waiver.

§ 239.11 *Direct loans.* It is contemplated that producers will ordinarily obtain loans from a local bank or other lending agency which, in turn, may sell the paper evidencing such loans to Commodity Credit Corporation. Arrangements, however, have been made for making direct loans to producers prior to May 1, 1944. In such cases, the note must be made payable to Commodity Credit Corporation and must be tendered to Commodity Credit Corporation, New Orleans, Louisiana, on a Producer's Letter of Transmittal (C. C. C. Cotton Form B) in duplicate, postmarked not later than April 30, 1944, if tendered by mail. Upon delivery of all necessary documents, properly executed, and upon approval, payment will be made in accordance with the directions of the producer contained in the C. C. C. Cotton Form B, which permits the producer, if

he so desires, to designate persons other than himself to receive all or part of the proceeds of the loan.

Direct loans will also be made on Certificates of Indemnity (Form FCI-74, issued by the Federal Crop Insurance Corporation). Instructions with reference to the requirements of Commodity Credit Corporation in making such loans will be issued by Commodity Credit Corporation as a supplement to these instructions and will be made available through the county agricultural conservation committees.

§ 239.12 Loans on farm-stored cotton. Loans will be made on eligible farm-stored cotton covered by Cotton Chattel Mortgages (C. C. C. Cotton Form F). These loans may be obtained through lending agencies or direct from Commodity Credit Corporation through county agricultural conservation committees. Information concerning such loans may be obtained from county agricultural conservation committees.

Loans on farm-stored cotton of the 1943 crop will be made at the base loan rate shown in the schedule of Basic Loan Rates by Counties for Farm-Stored Cotton for the county in which the cotton is stored, adjusted for the appropriate premium or discount for grade and staple length as shown in Table 1 attached. Eligibility of a cotton producer for such a loan shall be governed by the provisions of these instructions and any amendments thereto, except that eligible cotton shall be cotton produced in 1943 by or for a producer, provided that the cotton meets the following requirements:

- (1) Such cotton must be of a grade and staple specified in Table 1 attached.
- (2) Such cotton must be covered by a Cotton Chattel Mortgage (C. C. C. Cotton Form F) which will give the payee of the Cotton Producer's Note (C. C. C. Cotton Form E) secured by such mortgage a first lien on such cotton.
- (3) Such cotton must not be compressed to high density.
- (4) Such cotton must be free and clear of all liens and encumbrances.
- (5) Such cotton must be tendered for a loan by a person who has the legal right to mortgage it as security for a loan.
- (6) The beneficial interest in the cotton must be, and must always have been, in the person tendering such cotton for a loan, or in such person and any share tenant or sharecropper having an interest in the cotton or its proceeds in case such person is a landlord, cash tenant, or standing-rent tenant, and is placing under loan cotton in which both he and a share tenant or sharecropper have an interest.
- (7) Such cotton must not have been received in payment of standing or fixed rent.
- (8) All persons having an interest in the cotton must be entitled to loans on the cotton.

Loans may be obtained either directly from Commodity Credit Corporation or through a lending agency. The procedure to be followed in obtaining loans may be found in the Instructions and

Procedure for State and County Committees pertaining to the Farm-Storage Cotton Loan Program (Cotton Loan (Farm Storage), Part I, Revised) issued by the Agricultural Adjustment Agency.

Members of county agricultural conservation committees, by approving cotton producer's notes by signing in the space provided on such notes for the approval of the note by the county agricultural conservation committee, certify on behalf of such committees:

(a) That the producer is an "eligible producer" as defined in these instructions.

(b) That the mortgaged cotton is stored under seal in a storage facility located upon the premises described in section 2 of the chattel mortgage executed by the producer, and is in good condition and free from any damage.

(c) That the storage facility in which the mortgaged cotton is stored was inspected, approved, and sealed by a representative of this committee.

(d) That the grades and staple lengths shown in the Schedule of Farm-Stored Cotton in the chattel mortgage are the same as those recorded by the Board of Cotton Examiners of the United States Department of Agriculture for such bales.

(e) That the original chattel mortgage or a copy thereof, has been properly filed for record, in accordance with the applicable State laws governing execution and recording of chattel mortgages and the requirements of Commodity Credit Corporation.

(f) That the original chattel mortgage, or a copy thereof, bearing the fully executed receipt of the county recording official, is held by the committee.

(g) That, in the event the chattel mortgage has been signed by any person in a representative or fiduciary capacity, the committee has determined that such representative or fiduciary has proper authority to act; and that, if the committee did not have personal knowledge of the authority of the representative or fiduciary, it has required such person to show the committee documentary evidence of his authority.

(h) That the chattel mortgage was prepared under the supervision and with the assistance of the committee, and that the fee charged the producer for all services rendered by the committee in inspecting the storage facility and the mortgaged cotton and in assisting the producer to prepare the chattel mortgage, did not exceed the amount authorized to be charged for such services by Commodity Credit Corporation.

(i) That satisfactory evidence of the genuineness of the producer's signature and of the authority of all parties executing the note and chattel mortgage, lien waivers, and consents for storage, has been received, and that any documentary evidence of such authority will be held by the committee.

(j) That, to the best of the committee's knowledge and belief, all data entered on the chattel mortgage and all representations made by the producer are true and correct, and that the mortgaged cotton is "eligible cotton," as defined in these instructions.

(k) That a careful search has been made of lien records and, to the best knowledge and belief of the committee, the priority of existing liens on the mortgaged cotton has been duly waived.

(l) That consents for storage, where necessary, have been executed.

§ 239.13 Time and manner of tendering loans for purchase and pooling. Loans made by a lending agency which has executed and delivered a Lending Agency Agreement (C. C. C. Cotton Form D) to the Regional Office of Commodity Credit Corporation, New Orleans, Louisiana, prior to the making of the loan, will be eligible for purchase or pooling by Commodity Credit Corporation. C. C. C. Cotton Forms D are obtainable only from the Regional Office of Commodity Credit Corporation, New Orleans, Louisiana. Under the terms of this agreement, lending agencies which are parties thereto are required to tender to Commodity Credit Corporation, New Orleans, Louisiana, on Lending Agency's Letter of Transmittal (C. C. C. Cotton Form C), executed in triplicate, all notes on Form A, with collateral attached, representing loans made by the lending agency, within 15 days of the dates of the notes. Forty notes shall be submitted on each Lending Agency's Letter of Transmittal, except when fewer notes are listed thereon in order that the loans may be tendered within 15 days of the dates of their execution. The Lending Agency's Letter of Transmittal shall state whether the lending agency desires the Corporation to purchase the notes or to place them in a pool operated by it. Upon receipt by Commodity Credit Corporation, the loan papers will be examined, and, if found correct, will be approved and purchased, or will be transmitted to the Federal Reserve bank serving the district in which the cotton is stored and placed in a pool, as directed by the lending agency. In the event that the notes are pooled, a certificate of interest representing the interest in the pool, acquired as the result of the deposit therein of the notes shown on the letter of transmittal, will be issued to any approved lending agency designated by the lending agency tendering the eligible paper. All requests for the release of cotton pledged as security for notes on Form A will be handled by the Federal Reserve bank serving the district in which the loan originated.

§ 239.14 Lending agency. The lending agency shall endorse the notes of producers as provided on Form A. Care should be exercised by the lending agency to determine that the warehouse receipts are genuine. No provision is made for any deduction from the loan proceeds by the lending agency as a charge for handling the loan documents, except the authorized clerk's fee in case the lending agency has executed the clerk's certificate.

§ 239.16 *Repayments.* No partial releases of the cotton securing a note will be permitted. If a producer desires to obtain the return of the note and the release of the collateral, he should notify Commodity Credit Corporation, care of the Federal Reserve bank or branch thereof serving the district in which the cotton is stored, as stated in § 239.15. The notes and warehouse receipts will then be forwarded to an approved bank for release only to said producer upon payment of the amount of the loan, the accrued interest and proper charges. Do not send requests for the return of notes and the release of collateral to the Regional Office of Commodity Credit Corporation, New Orleans, Louisiana, as this causes delay in making the release. If the producer desires to sell his equity in the loan cotton, he must complete the Producer's Equity Transfer on his copy of Form A. Upon the request of the producer or upon receipt of the request contained in the Producer's Equity

Transfer on the producer's copy of Form A, the note and warehouse receipts will be forwarded to any approved bank designated by the person requesting the release of the cotton, with directions to release such note and warehouse receipts upon payment of the amount of the loan, the accrued interest, and proper charges. In all such cases, the bank will be instructed to return the notes and warehouse receipts to the Federal Reserve bank if payment is not effected within 15 days. All charges and expenses of the bank to which the notes and warehouse receipts are sent shall be paid by the person requesting the release of the cotton. In the event that release of the cotton is requested by the submission of the Producer's Equity Transfer, the witness to the producer's signature to such form must be a person approved for such purpose by a county agricultural conservation committee in the cotton-producing area.

A. PERMITTED TYPES OF CONDUCTOR AND PIPE

I. Electric conductor for primary:

a. Steel, or

b. Any other type of conductor not consisting exclusively of copper, which is available in the producer's inventory in excess of a practical working minimum, or in such excess inventory of another producer, and having a conductivity equal to or less than #6 AWG copper conductor.

II. Electric conductor for secondary: No limitation except for domestic extensions. In the case of domestic: any type of conductor having a conductivity equivalent to or less than that of # 6 AWG copper conductor.

III. Pipe:

a. For mains 2" in diameter and larger:

(1) Cast iron or non-metallic pipe.

(2) Steel pipe in cases where installation conditions, high working pressures or danger of breakage or leakage make the use of cast iron impracticable or dangerous.

b. For mains smaller than 2" in diameter and all service connections any type of pipe except copper.

B. PERMITTED QUANTITIES OF CONDUCTOR AND PIPE, OTHER THAN NON-METALLIC

I. Domestic consumers—*a. For electric extensions:*

(1) For primary lines, up to 900 conductor feet of any conductor permitted by section I above.

(2) For secondary lines and service drops, up to 20 pounds of non-ferrous metal in conductor, less one pound of non-ferrous metal for each 90 conductor feet or fraction thereof of conductor used in the primary extension, *Provided, however,* That up to 45 pounds of copper in conductor may be used in the extension of secondary and service drops, if the service may be rendered from a transformer already installed and in service.

b. For gas or central steam heating extensions:

(1) Up to 170 pounds of steel pipe or 1800 pounds of cast iron pipe.

(2) A combination involving not more than 170 pounds of steel pipe and not more than 1800 pounds of cast iron pipe less twice the weight of any steel pipe used.

c. For water extensions:

(1) Up to 170 pounds of steel pipe, or 1800 pounds of cast iron pipe, or 600 pounds of lead or lead alloy pipe, or

(2) One of the following combinations:

(a) not more than 170 pounds of steel pipe and not more than 1800 pounds of cast iron pipe less twice the weight of any steel pipe used.

(b) not more than 600 pounds of lead or lead-alloy pipe and not more than 1800 pounds of cast iron pipe less the weight of any lead or lead alloy pipe used.

(c) Not more than 170 pounds of steel pipe and not more than 600 pounds of lead or lead alloy pipe, less twice the weight of any steel pipe used.

II. Industrial consumers—The smallest size or quantities of equipment, conductor, or pipe required to furnish electricity, gas, water, or central steam heat at minimum service standards.

III. Commercial consumers—*a. For electric extensions:*

(1) For primary lines, up to 900 conductor feet of any conductor permitted by Section I above.

(2) For secondary lines and service drops, up to 40 pounds of non-ferrous metal in conductor, less one pound of non-ferrous metal for each 90 conductor feet or fraction thereof of conductor used in the primary extension: *Provided, however,* that up to 65 pounds of copper in conductor may be used in the extension of secondary and service drops, if the service may be rendered from a transformer, already installed and in service.

b. For gas or central steam heat extensions:

(1) Up to 250 pounds of steel pipe, or 2000 pounds of cast iron pipe, or

(2) A combination of not more than 250 pounds of steel pipe and not more than 2000 pounds of cast iron pipe less twice the weight of any steel pipe used.

c. For water extensions:

(1) Up to 250 pounds of steel pipe, or 2000 pounds of cast iron pipe, or 1000 pounds of lead or lead alloy pipe, or

(2) One of the following combinations:

(a) not more than 250 pounds of steel pipe, and not more than 2000 pounds of cast iron pipe less twice the weight of any steel pipe used, or

(b) not more than 1000 pounds of lead or lead alloy pipe, and 2000 pounds of cast iron pipe less the weight of any lead pipe used.

(c) Not more than 250 pounds of steel pipe and not more than 1000 pounds of lead or lead alloy pipe, less twice the weight of any steel pipe used.

C. PERMITTED QUANTITIES OF NON-METALLIC PIPE

Non-metallic pipe of a length not greater than that length which would be installed if cast iron pipe were used in accordance with the quantities in the above standards.

PART 1351—FOOD AND FOOD PRODUCTS

[Rev. MPR 271, Amdt. 7]

POTATOES AND ONIONS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 271 is amended in the following respects:

1. Section 4 (a), is amended to read as follows:

(a) *Sales and deliveries by retailers.* (See Maximum Price Regulation Nos. 422² and 423³).

2. Section 8 (a) (5) is amended to read as follows:

(5) "Intermediate seller" means any person (other than a retailer as defined in Maximum Price Regulation No. 422² and Maximum Price Regulation No. 423³ and other than a country shipper) who purchases potatoes or onions for the purpose of reselling and who takes title and who makes sales to any person who is not an ultimate consumer. The term

"ultimate consumer" shall not include industrial, commercial or institutional users (including procurement agencies of the United States or any State thereof.)

3. Sections 8 (a) (6) and 8 (a) (7) are deleted.

4. In section 9 (a) the examples are amended to read as follows:

Example 1: Suppose you are a person (including a grower) who sells potatoes or onions in the State of Pennsylvania. You wish to sell 5 carlots of potatoes in September, 1943. You turn to Article V, section 24, Table III, and find that the maximum price for potatoes produced in your area and sold in September, 1943, is \$2.55 per cwt. This is the highest price which you are permitted to charge f. o. b. (usual terms or cash track) your country shipping point during September, 1943.

Example 2: Suppose you are a country shipper from Modoc county, in the State of California who wishes to sell unharvested potatoes, to be harvested September, 1943. You turn to Article V, section 24, Table III, and you find that the maximum price for potatoes produced in Modoc county and sold in September, 1943, is \$2.45 per cwt. f. o. b. country shipping point. You may contract to sell these potatoes at the rate of \$2.45 per cwt. (on the basis of U. S. No. 1, grade sacked and loaded on carrier) according to the ultimate actual yield. You may also contract to sell these potatoes by the acre, but your contract, in such case, must provide that the ultimate selling price will be the per acre price or \$2.45 per cwt. according to the actual yield per acre, whichever is lower. You may not sell unharvested potatoes at a per acre price because you must know the yield before you can figure the price per cwt.

Example 3: Suppose you are a country shipper in the State of Wisconsin and ship potatoes in August, 1943 for delivery to the purchaser in September, 1943. You turn to Article V, section 24, Table III and find that the maximum price for potatoes produced in your area is \$2.45 for August and \$2.30 per cwt. for September. Unless the carrier is owned or controlled by you, delivery to the carrier is considered to be delivery to the purchaser regardless of when title passes as a matter of sales law. Thus, the highest price you may charge for potatoes shipped in August on a carrier not owned or controlled by you is \$2.45 per cwt. f. o. b. country shipping point.

5. In section 9 (c) the example is amended to read as follows:

Example: A country shipper at Long Island, New York, sells Long Island potatoes (of the 1943 crop) in September, 1943, through a broker, delivered to the premises of a retailer located in New York City. The shipper turns to Article V, section 24, Table III and finds that his maximum price f. o. b. country shipping point is \$2.60 per cwt. for selling through a broker and under paragraph (c) of this section 9, he is permitted to add 60 cents per cwt. for selling delivered to the premises of a retailer. In addition, he is permitted to add the transportation cost (15 cents per cwt.) from Long Island to New York City, and 6 cents per cwt. for selling on a delivered basis. Therefore, the maximum price for his delivered sale is \$3.46 per cwt. If the shipper sells on a delivered basis to an intermediate seller and performs the selling functions described in paragraph (b) (3) of section (9), his maximum delivered price

in \$2.60 plus 15 cents (freight) plus 14 cents (see (b) (3) of section 9), which results in a maximum price for this sale of \$2.89.

6. Section 9 (h) is renumbered 9 (h) (1) and section 9 (h) (2) is added to read as follows:

(2) Every country shipper shipping potatoes or onions by freight car, truck, or other means of transport from one place to another shall post within such freight car, truck, or other means of transport, a manifest showing the place from which such potatoes or onions were shipped, the quantity, type and grade thereof, the selling price and the name and address of the owner, of the shipper, and of the person to whom shipped. A copy of this manifest shall be retained by the shipper in addition to the documents mentioned in section 22, and pursuant to that section.

7. In section 10 the example is amended to read as follows:

Example: Suppose you are a carlot distributor of potatoes located in Pittsburgh, Pennsylvania. In September, 1943, you purchase a carlot of Maine potatoes f. o. b. country shipping point. You turn to Article V, section 24, Table III, and find that the maximum price per cwt. for 1943 crop Maine potatoes in September, 1943, is \$2.25. To this you may add the cost of transportation to your customary receiving point and 14 cents per cwt. If the sale to you was made on a delivered basis, and the shipper has added 6 cents per cwt. pursuant to section 9 (b) (2) you may nevertheless add only 14 cents per cwt. to the maximum price f. o. b. country shipping point plus the cost of transportation. The resulting maximum price, regardless of the terms of the purchase, is \$2.25 plus transportation plus 14 cents.

8. In section 11 (a) the note is amended to read as follows:

NOTE: No more than 14¢ per hundred weight (in the case of potatoes) or 9¢ per 50 pounds (in the case of onions) shall be added to the f. o. b. shipping point price in arriving at the base price. (See *Example*, section 10.) In no event may an intermediate seller add a commission merchant's commission or an auction market's fee to his base price.

9. Subdivision (iv) is added to section 11 (c) (7) to read as follows:

(iv) All regional offices, and such district offices as they in turn may authorize, may approve or disapprove in whole or in part the zone differentials reported under (iii) above, and may, on the basis of such reported zone differentials, establish uniform zone differentials.

10. In section 11 (c) (8) the words "Table III of" are deleted.

11. Section 11 (c) (9) is added to read as follows:

(9) For sales by intermediate sellers to ultimate consumers the maximum price shall be the intermediate seller's base price, as computed under this regulation, for the item being sold, plus \$1.00 per cwt. for potatoes or plus \$1.00 per 50 pounds for onions.

Chapter XIII—Petroleum Administration for War

[Petroleum Directive 73]

PART 1555—PIPE LINE OPERATIONS

WAR EMERGENCY PETROLEUM PRODUCTS PIPELINE

The diversion for war and other essential purposes, together with loss through enemy action, of tankers normally engaged in the transportation of petroleum products from United States Gulf Coast ports to Atlantic ports, has made necessary the construction of a 20-inch war emergency petroleum products pipe line system from the vicinity of Houston and Beaumont, Texas to Norris City, Illinois, thence northeasterly to terminal facilities in the New York Harbor area. The following operating directive is deemed necessary to maintain that pipe line system at maximum operating capacity for the prosecution of the war and most effective utilization of petroleum.

§ 1555.2 *Petroleum Directive 73—(a) Utilization of the 20-inch war emergency petroleum products pipe line.* (1) The 20-inch war emergency petroleum products pipe line system shall be utilized for the purpose of relieving shortages of petroleum products in District One and augmenting supplies for offshore shipments. The entire capacity shall be employed in the transportation to District One of kinds and quantities of petroleum products designated in the manner hereinafter stated.

(b) *Preparation and filing of reports, forecasts and plans.* (1) War Emergency Pipelines, Inc., shall prepare and file with the Director of Transportation, Petroleum Administration for War, condensed daily reports of operations of the pipe line system, including, but not necessarily restricted to, the throughput of each kind of petroleum product trans-

ported; the quantities and kinds of petroleum products in storage at each terminus of the line; the kinds and quantities in transit, and received from and delivered to suppliers or receivers. Additional data and reports relating to operation of the pipe line system shall be furnished promptly by War Emergency Pipelines, Inc., or others engaged in the petroleum industry, upon request therefor by the Director of Transportation, Petroleum Administration for War.

(2) On or before the tenth day of each calendar month, War Emergency Pipelines, Inc., shall prepare and file with the Director of Transportation, Petroleum Administration for War:

(i) A forecast of the throughput capacity of the line and a forecast of the terminal storage and daily deliveries at each of the easterly termini of the line for each of the three following months; and

(ii) Data respecting any prospective changes in, or additions to the pipe line facilities which will affect the physical operation of the line.

(c) *Preparation and issuance of operating schedules.* (1) On or before the fifteenth day of each calendar month the Director of Transportation, Petroleum Administration for War, shall issue schedules hereunder, in conformance with data and information furnished by the Director of Petroleum Supply, Petroleum Administration for War, designating finally for the following calendar month, and tentatively for the second and third following months:

(i) By whom, where, what kinds and in what quantities petroleum products shall be delivered and sold to War Emergency Pipelines, Inc., as Agent for Defense Supplies Corporation;

(ii) By whom, where, what kinds and in what quantities the petroleum products to be delivered at the easterly termini of the pipe line system during each such month shall be purchased and received; and

(iii) The terminals in District One to which such petroleum products shall be delivered.

(2) To the extent practical, schedules issued hereunder shall designate sources of supply and easterly termini delivery points best adapted to operation of the pipe line system at maximum sustained capacity, and so as to attain efficient over-all use of petroleum transportation facilities.

(d) *Adjustments and corrections of inequities.* (1) Deliveries of petroleum products to purchasers designated by schedules issued hereunder shall be taken into account in the administration of Petroleum Directive 59, and amendments or supplements thereto.

(2) *Administration.* (1) The Director of Petroleum Supply, the Director of Refining and the Director of Transportation shall coordinate the activities of those engaged in the industry affected by this Directive and, respectively, shall from time to time direct such affirmative action as may be necessary to accomplish the purposes hereof.

(2) War Emergency Pipelines, Inc., any committees appointed or approved by the Office of Petroleum Coordinator,

or Petroleum Administration for War, and any other persons engaged in the industry may confer, accumulate and submit information, data and suggestions to the Petroleum Administrator respecting schedules or directions to be issued hereunder.

(3) No petroleum products shall be transported through the facilities of the War Emergency Pipeline System except in pursuance of this Directive or amendments and supplements thereto.

(f) *Appeals.* An appeal may be taken to the Petroleum Administrator or the Deputy Petroleum Administrator by any party feeling itself aggrieved by any designation, schedule or direction issued hereunder, but pending disposition of such appeal, such designation or order shall be complied with.

Deputy Petroleum
Administrator for War.

OFFICE OF DEFENSE TRANSPORTATION.

WHOLESALE DRUG DEALERS, MILWAUKEE, WIS.

RECOMMENDATION OF JOINT ACTION PLAN

Pursuant to a provision of a general order issued by the Office of Defense Transportation for the purpose, among others, of conserving and providently utilizing motor vehicles and vital equipment, materials, and supplies (General Order ODT 17, as amended, 7 F.R. 5678, 7694, 9623; 8 F.R. 8278, 8377, 10190), Yahr-Lange, Inc., Mutual Drug Company, McKesson & Robbins, Inc., and F. Dohmen Company, all of Milwaukee, Wisconsin, have filed with the Office of Defense Transportation for approval a joint action plan relating to transportation and wholesale delivery of drugs by motor vehicle in Milwaukee County, Wisconsin.

The participants plan to make wholesale deliveries to retail drug stores in Milwaukee County only on five days in each week, and will make such deliveries on the next delivery day after receipt of orders therefor. The placing of larger orders at less frequent intervals will be encouraged, in order to eliminate numerous deliveries of small orders. For mak-

ing their deliveries, two of the participants use a for-hire carrier; the other two participants operate their own trucks. Effectuation of the plan will result in an estimated saving of approximately 15,000 miles a year.

It appearing that the proposed joint action plan is in conformity with General Order ODT 17, as amended, and that the effectuation thereof will accomplish substantial conservation and efficient utilization of motor trucks and vital materials and supplies, the attainment of which purposes is essential to the successful prosecution of the war, I have approved the plan and recommend that the Chairman of the War Production Board find and certify under section 12 of Public Law 603, 77th Congress (56 Stat. 357), that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with said joint action plan, is requisite to the prosecution of the war.

Issued at Washington, D. C., this 21st day of September 1943.

Director,

VALVES AND FITTINGS FOR USE ON COMMERCIAL AND INDUSTRIAL GAS RANGES, GAS HEATERS, AND GAS REFRIGERATORS

ORDER AUTHORIZING ADJUSTABLE PRICING

A petition has been filed by several manufacturers of valves and fittings for use on commercial and industrial gas ranges, gas water heaters, gas space heaters, gas central heaters, and gas refrigerators, for an amendment of Maximum Price Regulation No. 188, as amended, to increase the presently established maximum prices under that regulation for such valves and fittings. This order is applicable only to manufacturers of such valves and fittings.

It has been shown that authorization to use adjustable pricing, pending action on the petition for amendment is necessary to promote the production of such valves and fittings and that such authorization will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328. Therefore, in accordance with §1499.19a of the General Maximum Price Regulation, which is made a part of Maximum Price Regulation No. 188, as amended, by incorporation, *It is hereby ordered, That:*

(a) Pending final determination by the Office of Price Administration of the petition for amendment now on file, such manufacturers as are covered by this order are hereby authorized to sell and any manufacturer of gas ranges, gas water heaters, gas space heaters, gas central heaters and gas refrigerators, may buy and receive from such manufacturers such valves and fittings at prices not in excess of the maximum prices established in accordance with Maximum Price Regulation No. 188, as amended:

Provided, however, That any such seller may agree with any purchaser covered by this order in any contract for the sale of such valves and fittings that the contract price may be adjusted to conform to the final determination of the Administrator upon the petition for amendment, and: *Provided further,* That such manufacturers may not receive and their purchasers may not pay an amount in excess of the maximum prices established under Maximum Price Regulation No. 188, as amended, until final action is taken on the petition for amendment now pending permitting an increase of such established maximum prices.

(b) This order shall be automatically revoked upon the establishment by the Office of Price Administration of maximum prices for such valves and fittings higher than the maximum prices now prevailing or upon denial of the petition for amendment. It may be revoked or amended by the Price Administrator at any time.

(c) This order shall become effective September 30, 1943.

Issued this 29th day of September 1943.

Administrator.

[Region IV Order G-8 Under Rev. MPR 122] SOLID FUELS IN DESIGNATED AREAS OF SOUTH CAROLINA

Order No. G-8 under § 1340.260 of Revised Maximum Price Regulation No. 122. Solid Fuels sold and delivered by dealers. Maximum prices for solid fuels in the City of Columbia and certain adjacent territory in the State of South Carolina.

Pursuant to the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122 and for reasons stated in the opinion issued herewith, It is ordered:

(a) *What this order does.* (1) This order establishes maximum prices for sales of specified solid fuels when the delivery is made to any point within a radius of ten miles of the State Capitol Building in the city of Columbia, South Carolina. This ten mile radius is determined by the actual highway mileage from the State Capitol Building to the point of delivery by the most direct route.

(2) This order contains a price schedule applicable to sales of high volatile bituminous coal from District No. 8.

(b) *What this order prohibits.* Regardless of any obligation, no person shall:

(1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this Order No. G-8 but less than maximum prices may at any time be charged, paid or offered.

(2) Obtain a higher than maximum price by:

(i) Charging for a service which is not expressly requested by the buyer and which is not specifically authorized by this order,

(ii) Using any tying agreement or making any requirement that anything other than the fuel requested by the buyer be purchased by him, or

(iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly.

(c) *Price schedule—Sales on a "direct delivery or domestic" basis—(1) Consumer sales.* This price schedule sets forth maximum prices for sales of specified solid fuels when the delivery is made

to any point within a radius of ten miles of the State Capitol Building in the city of Columbia, South Carolina. This ten-mile radius is determined by the actual highway mileage from the State Capitol Building to the point of delivery by the most direct route.

HIGH VOLATILE BITUMINOUS COAL FROM
DISTRICT NO. 8

Egg.....	10.00	5.25
Stoker.....	9.30	4.90

(2) *Maximum authorized service charges and deductions*—(i) *Carry or wheel service.* If buyer requests such service the dealer may charge not more than 50 cents per ton for such service.

(ii) *Carry up or down stairs.* If buyer request such service the dealer may charge not more than \$1.00 per ton for such service.

(iii) *Sacking.* Dealer may charge not more than 50 cents for 80 lb. bag at yards, and 60 cents for 80 lb. bags delivered.

(iv) *Yard sales.* When the buyer picks up coal at the dealer's yard the dealer must reduce the domestic price \$1.00 per ton.

(v) *Quantity.* When the buyer purchases forty tons or more, either in carload or less than carload deliveries, dealer must reduce the domestic price \$1.50 per ton on lump, chunk, block, and egg coals, and \$1.00 per ton on stoker coals. No quantity discount shall be applicable on the sale of nut and slack coals.

(vi) *Credit.* No additional charge over the prices listed in this schedule may be made for the extension of credit.

(d) *Ex Parte 148 freight rate increase; transportation tax*—(1) *The freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December 1941. Therefore, no dealer may increase any schedule price on account of freight rates.

(2) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order: *Provided*, The dealer states it separately from the price on the statement given to the buyer under paragraph (n) (2). (This tax need not be stated separately on sales to the United States or any agency thereof, see Amendment 12 to Revised Maximum Price Regulation 122). No part of this tax may be collected in addition to the maximum prices on sales of quarter-ton or lesser quantities or on sales of any quantity of bagged coal.

(e) *Addition of increase in supplier's prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Administrator.

(f) *Power to amend or revoke.* The Price Administrator or Regional Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(g) *Petitions for amendment.* Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(1) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation. Sections 15 and 16 provide, in brief, that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but a dealer may later be required to register. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(h) *Records and reports.* Every dealer subject to this order shall preserve, keep and make available for examination by the Office of Price Administration, the same records he was required to preserve and keep under § 1340.262 (a) and (b) of Regulation No. 122.

It is not necessary that these maximum prices be filed with the War Price and Rationing Boards.

(i) *Posting of maximum prices; sales slips and receipts.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: The date of the sale, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, the price charged and separately stating, any item which is required to be separately stated by this order. This paragraph (n) (2) shall not apply to sales of quantities of less than quarter-ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December 1941 customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(j) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, pro-

vided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Columbia, South Carolina, District Office of the Office of Price Administration.

(5) "Carry" and "wheel" refer to the movement of fuel to buyer's bin or storage space by wheelbarrow, barrel, or sack or otherwise from the seller's truck or from the point of discharge therefrom when made in the course of "direct delivery."

SOLID FUELS IN SYRACUSE, N. Y.

Order No. G-2 under Revised Maximum Price Regulation No. 122; File No. II-18(c)-15.

It is the judgment of the Regional Administrator that there exists or threatens to exist in the City of Syracuse, State of New York, a shortage in the supply of a solid fuel which is essential to a standard of living consistent with the prosecution of the war; that such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of sellers in the City of Syracuse for such solid fuels; and that such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Accordingly, pursuant to the Emergency Price Control Act of 1942, as amended, and § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and Revised Procedural Regulation No. 1, and for the reasons set forth in an opinion to be issued forthwith, *It is ordered*, That:

(a) On and after January 29, 1943, the maximum prices of wholesale and retail dealers and of other retail sellers in the City of Syracuse, New York, for the sale and delivery at retail and at wholesale in the City of Syracuse of anthracite coal, chestnut size, shall be the applicable adjusted maximum prices set forth in the following schedule:

(1) Adjusted maximum prices for sales at wholesale:

Per net ton, in bags, at dealer's yard.....\$12.75
Per net ton, in bags, delivered.....13.75

(2) Adjusted maximum prices for sales at retail:

50 pound bags......40 per bag
100 pound bags......75 per bag

(b) The foregoing adjusted maximum prices include the amount of the railroad freight rate increase incurred by dealers in the City of Syracuse as a result of the Interstate Commerce Commission's order in its Docket Ex Parte 148, effective March 18, 1942, and the amount authorized by § 1340.265 of Revised Maximum Price Regulation No. 122 for taxes, and such railroad freight rate increase and such taxes may not be added to the adjusted maximum prices, notwithstanding the provisions of §§ 1340.257 and 1340.265 of the regulation.

(c) Each wholesale and retail seller in the City of Syracuse may add to the adjusted maximum prices prescribed herein in any increase in his supplier's maximum price to him for such fuel over such supplier's present maximum price to him therefor.

(d) The adjusted maximum prices prescribed herein shall not apply to sales and deliveries by wholesale or retail sellers in the City of Syracuse to persons outside of such city.

(e) This order is subject to revocation or amendment by the Regional Administrator or by the Price Administrator at any time hereafter, either by special order or by price regulation issued hereafter, or by supplement or amendment hereafter issued as to any price regulation, the provisions of which may be contrary hereto.

(f) *Definitions.* When used in this order:

(1) The size of anthracite coal described as chestnut shall refer to the same size of anthracite coal as was sold by wholesale and retail sellers in the City of Syracuse with such designation during December, 1941.

(2) The term "per net ton delivered" used in paragraph (a) (1) hereof shall refer to the dealer's wholesale maximum price for delivery to the purchaser's premises or to such other place in the City of Syracuse as the purchaser may designate. The term "net ton" refers to a net ton of anthracite coal, chestnut size, already packed in bags of 50 or 100 pounds each.

(3) Unless the context otherwise requires, the definitions set forth in Revised Maximum Price Regulation No. 122 shall apply to terms used herein.
